

FAILED EU FUNDS

Derek Elliot, UKIP Cornwall Councillor, appeared on Spotlight TV last week to highlight that UKIP is the only party to monitor how the EU funds are being wasted.

Derek reported “ The fact that even though we do not want to be in this ' system of pay in / pay out ', at least UKIP took the trouble and time to investigate what was happening with the returned taxpayers money “

Tamsin Melville said he was the only person raising the issue of miss-spent and wasted funds. She had only come to notice this through Derek's letters in the Western Morning News.

If you look up BBC teletext on 5th July under the West- South West, there is a major article about how the EU FUNDS FAILED TO CREATE THE 10,000 JOBS.

Derek raised this issue, so let's ask everyone in Cornwall whether they think this funding is a good reason to be ruled by Brussels.

Well done, Derek, for all your work on this.

Cornwall's UKIP Councillors are keeping up the pressure on Council Officers who are, to say the least, not best pleased.

After repeated letters to Western Morning News, West Briton, Cornishman and St. Ives Times & Echo about planning, interference with the democratic process, and the Cornwall/Brussels office, they have now been printed.
